

UZAIR IMAM

MERN Stack Developer

Multan, Pakistan | +92 300 7351527 | uzair.imam03@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on, project-based experience building responsive web interfaces and cross-platform mobile apps with React.js, React Native, and TypeScript. Comfortable with component-based architecture, hooks, state management, and wiring REST and real-time (Socket.io) APIs into production-style UIs. Works across the full stack when needed (Node.js, MongoDB) and brings a fast, self-directed learning approach to new frameworks and tools.

TECHNICAL SKILLS

- **Frontend:** React.js, React Native, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, EJS
- **React Ecosystem:** Hooks, Component-Based Architecture, Vite, Next.js, Context API
- **Backend & APIs:** Node.js, Express.js, REST APIs, Socket.io, WebSockets
- **Databases & Platforms:** MongoDB, Firebase, Firestore, Supabase, Appwrite
- **Tools:** Git, GitHub, Postman, npm, Linux (Ubuntu), Render

KEY PROJECTS

Real-Time Chat Application | *React, Node.js, Express.js, Socket.io, MongoDB*

[GitHub](#) | [Live Demo](#)

- Built the React front end for a live messaging platform, wiring up Socket.io for real-time, bi-directional message updates and an authenticated user flow.
- Deployed the application to Render and configured Content Security Policies for secure production delivery.

School Management System | *React Native, TypeScript, Node.js, Express.js, MongoDB*

[GitHub](#) | [Demo Files](#)

- Built the cross-platform mobile UI in React Native and TypeScript, with role-based navigation and views for students, teachers, and administrators.
- Designed and integrated 20+ functional screens covering end-to-end academic management workflows.

Movie Discovery App (guided build) | *React.js, Tailwind CSS, Vite, Appwrite, TMDB API*

[GitHub](#) | [Live Demo](#)

- Built a responsive React app to browse, search, and surface trending movies via the TMDB API, with Appwrite handling backend data.
- Completed by following an industry tutorial to deepen component architecture, hooks, and third-party API integration skills.

SaaS Learning Platform (guided build) | *Next.js, TypeScript, Clerk, Supabase, Tailwind CSS*

[GitHub](#) | [Live Demo](#)

- Followed an industry tutorial to build a Next.js application with Clerk authentication and a Supabase data layer, to extend React skills into a full meta-framework.

PRACTICAL EXPERIENCE

Independent Software Development — Self-Directed Projects, Multan, PK

- Built reusable, component-based UI in React.js and React Native using functional components and hooks.
- Integrated REST and real-time (Socket.io) APIs into front-end interfaces for responsive, live user experiences.
- Engineered supporting RESTful APIs with Node.js/Express.js and worked across the React ecosystem, including Vite, Next.js, Appwrite, and Supabase.

EDUCATION

BS in Computer Science

University of Education, Lahore (Multan Campus)

CGPA: 3.45
